

# **RUSSIAN ROULETTE DAO - A WILD WEST CULT.**

## **TECHNICAL LITEPAPER.**

[WWW.RUSSIANROULETTEDAO.GITHUB.IO](http://WWW.RUSSIANROULETTEDAO.GITHUB.IO)

### **PROJECT BRIEFING**

THIS IS A PONZI. BUT A DAMN GOOD ONE. THIS IS DESIGNED TO BE A BEAR MARKET COMMUNITY HEDGE OR SAVINGS CONCEPT. THAT ALSO THRIVES DURING THE BULL SEASON WITH LOWER TAXES. IT PROTECTS HOLDERS NO MATTER THE SEASON OF MARKET FORCES. IT IS INSULATED FROM DUMPS. BUT EXPOSED TO PUMPS. THIS IS A NEW MONEY CONCEPT FOR A NICHE APPETITE IN TAXED TRANSACTIONS PROJECTS. WE LOVE TAXES AND WE CAN CREATE AN ECONOMY OUT OF THEM. EVERYONE WANTS A PROJECT WHICH WHEN IT GOES UP STAYS UP AND IN GOOD HEALTH. YOU BUY AND THE PRICE PRETTY MUCH CAN'T GO DOWN BECAUSE NOBODY WANTS TO FORCE AN UNSCHEDULED LOW TAX SELL. IF YOU DO. YOU'RE SLAPPED WITH A HEFTY TAX.

**WE WANT TO DO 2 THINGS THAT HAVEN'T BEEN TRIED BEFORE:**

**A 90% SELL TAX (WHICH CHANGES TO 10% IF YOU SCHEDULE A SELL)**

**ALLOWING 90% TAX SELLS (SOMETHING UNISWAP CAN'T DO DIRECTLY BUT WE WORK AROUND IT)**

**OWNER CONTROLS NO HARMFUL FUNCTIONS. JUST RATE SETTERS. ALL THE FEES AND REVENUE ALLOCATIONS ARE CONTROLLED BY THE COMMUNITY THROUGH POLLS AND AUTOMATED LIQUIDITY POOL CHECKS.**

### **SYSTEM EXPLAINED**

**LOCK IN TOKENS USING HIGH SELL TAX. GUAGE BUY AND SELL PRESSURES TO ALLOCATE FUNDS BETWEEN BUYBACKS AND TREASURY MORE INTUITIVELY TO MAINTAIN GOOD PROJECT HEALTH. TIME PLANNED SCHEDULES FOR TOKEN PROFIT TAKING - IMPLEMENTED WITH EQUAL OPPORTUNITY FOR ALL AND FAIRNESS.**

**THIS IS FOR A NICHE APPETITE. BUT IF EVERYONE BUYS INTO THIS CONCEPT THEN WE ARE GOING PLACES. WE ALL WANT TO MAKE MONEY WHEN IT GOES UP. BUT WE ALSO WANT SOMETHING THAT STAYS UP. NOT TO CONSTANTLY WORRY ABOUT WHEN IT WILL COME DOWN.**

**> BUYS 15% CONSTANT. 5% GOES TOWARDS REFLECTIONS.**

**> SELLS.**

**2 TYPES:**

**SCHEDULED SELLS - 10%. EVERY SATURDAY**

**UN-SCHEDULE SELLS - 90%. OTHER DAYS OF THE WEEK**

### **QUALIFYING FOR LOW SELL TAX**

IN ORDER TO SCHEDULE A SELL AND QUALIFY FOR LOW TAX, WE LEAVE IT TO CHANCE. YOU PLAY RUSSIAN ROULETTE, WITH 1 IN 6 CHANCES OF WINNING.

YOU CAN MANUALLY PICK A NUMBER BETWEEN 1 & 2 THEN SUBMIT TO THE CONTRACT. IF THE CONTRACT PULLS ON THE SAME BARREL NUMBER YOU PICKED THEN YOU WIN. YOU AUTOMATICALLY HAVE 1 SCHEDULED SELL ON THE BOOKS. BUT YOU CAN ONLY USE IT ON THE FIRST OF THE MONTH (RUSSIAN ROULETTE DAY).

### **THE PLOT**

LP ROUGH MATH SCENARIO: 100,000 TOKENS, AND 1 ETH. THAT'S A PRICE OF 0.000001ETH PER TOKEN. IF 10,000 TOKENS ARE SOLD AT 90% SELL TAX, ONLY 1000 TOKENS GO THE LP (IN OUR PROXY APPROACH - CHECK OUT CONTRACT CODE). THAT'S ABOUT 0.01 NET ETH OUTFLOW FROM THE LP AND 1000 TOKENS INTO THE LP. LP BALANCE IS NOW 101,000 TOKENS AND 0.99 ETH. PRICE IS NOW 0.0000099 ETH PER TOKEN. THEN WE BUY BACK AN EQUIVALENT AMOUNT OF ETH OUTFLOW FROM LP, 0.01 ETH (1010 TOKENS), TO GO BACK TO 1 ETH IN THE LP. PRICE IS RESTORED - FOR THE NEXT SELLER IN LINE. BUT WITH 99,990 TOKENS IN THE LP AND 9000 TOKENS LESS IN THE CIRCULATING SUPPLY.

THEORETICALLY, IF WE BUY BACK ALL THE TOKENS ADDED TO THE LP WHEN SOMEONE SELLS, THEN WE END UP WHERE WE WERE BEFORE. MORE REWARDS EVEN FOR CIRCULATING SUPPLY. WHILST PRICE REMAINS ROUGHLY THE SAME.

### **LETS TALK SUSTAINABILITY & STABILITY.**

FOR ANY PROJECT THE BIGGEST ENEMY TO GROWTH IS UNCHECKED HIGH SELLING PRESSURE. THIS DISMISSES BOTH THE OLD INVESTORS AND NEW. MOST TIMES BEFORE THE PROJECT EVEN TAKES OFF.

IT'S GREAT TO ALLOW PEOPLE THE FREEDOM TO BUY AND SELL WHEN THEY WANT. BUT THIS IS NOT REALISTIC IN CRYPTO IF YOU WANT TO MAKE EVERYONE RICH. SOMEONE HAS TO BE THE EXIT LIQUIDITY. IN THIS CASE WE ARE TAKING OUT THAT PROBLEM. WE WANT TO MAKE EVERYONE WHO EVER INVESTS TO EXIT WHOLE. WHEN THEIR TURN COMES.

HAVING MONEY LEAVE WHOEVER IT WANTS JUST CAN'T WORK WITH NO-USE-TOKENS/MEMES BECAUSE THE INVESTORS ARE THE REVENUE SOURCE. THE FUNDS THEY POOL TOGETHER, THEIR TRADING ACTIVITY, ETC. THEY ARE THE MONEY. THERE ARE REAL WORLD USE CASES THAT GENERATE PROFIT. DISCOURAGING SELL TAXES ARE THE INEVITABLE SOLUTION. IF WE ARE TALKING BOTH SUSTAINABILITY AND MAKING EVERYONE FREAKING RICH.

TO BE FRANK, YOU CAN'T HAVE THE ONLY SOURCE OF INCOME COME AND GO WHEN IT WANTS. IT WILL JUST END UP ANOTHER PUMP AND DUMP. NO MATTER HOW GOOD THE USE CASE OR STORY IT ALL DUMPS AND ERODES ALL VALUE. IN OTHER WORDS, IT'S ALL A PONZI YES. BUT IF YOU'RE GOING TO MAKE A PONZI THEN MAKE A DAMN GOOD SUSTAINABLE ONE.

## **ACHIEVING SUSTAINABILITY & OUR APPROACH TO GUARANTEEING VALUE**

PEACEFUL NIGHTS COME WHEN YOU KNOW THERE'S NO WAY YOU'D EVER LOSE BY JUST HOLDING. IN OUR LITEPAPER WE DISCUSS THE ACHIEVEMENTS AND LIMITATIONS OF OTHER POPULAR MECHANISMS WHICH WERE MEANT TO GUARANTEE TOKEN VALUE: STAKING (THE VERY BASIC) AND BACKED/PEGGED TOKENS (MORE COMPLEX). OUR APPROACH IS SIMPLER AND MORE STRAIGHT FORWARD. AND CAN ACHIEVE THE SAME EFFECT IF NOT BETTER. BUT YOU HAVE TO COMPROMISE ON:

- TOKEN FLIPPING ADDICTION. PATIENCE TO WAIT YOUR TURN TO CASH OUT AT MAX PROFIT (SELLING AT LOW TAXES) NOT LOW PROFIT (SELLING AT HIGH TAXES).

### **BENEFITS**

- EVERY INVESTOR IS GUARANTEED A TURN AT SCHEDULING A LOW SELL TAX. STATISTICALLY. TIMES WILL DIFFER.
- WE USE POOLED FUNDS TO ONLY GUARANTEE VALUE AND FARM FOR MORE WEALTH
- THE INVESTORS CONTROL THE FINANCES DIRECTLY. THEY ARE NOT TRUSTING ANYONE WITH IT
- YOUR INVESTMENT IS NOT SOMEONE ELSE'S EXIT LIQUIDITY WHILST THEY DUMP THEIR TOKENS ON YOU. DUMPING TO OBLIVION IS SIMPLY IMPOSSIBLE HERE.

WIGGLING IN THIS ECOSYSTEM REVOLVES AROUND:

- USING ALTERNATIVE LIQUIDITY UNLOCKING MECHANISMS BESIDES SELLING
- BUYING EARLY AND CASHING OUT AT PROFIT EVEN AFTER TAKING A 90% TAX IF YOU ARE THAT IMPATIENT FOR YOUR TURN.

WHEN WE SAY WE ARE CURBING SELL PRESSURE. WE ARE COUNTING ON INVESTORS BEING AFRAID OF TAKING A 90% TAX. NOT BEING RESTRICTED FROM SELLING.

## **DETAILING THE KEY PONZI MECHANISMS**

WE ARE LOOKING TO CREATE A SAFE, STABLE AND SUSTAINABLE ECONOMY THAT CAN WEATHER ALL SEASONS. NOT TO JUST PERFORM IN BULL MARKETS ONLY.

THIS CAN BE ACHIEVED WITH INBUILT MECHANISMS AS FOLLOWS:

### **1. A HIGHLY DISCOURAGING SELL TAX**

SELLING RELIEF COMES IN THE FOLLOWING WAYS:

- A) LOWERING TAXES EVERY SATURDAY TO 10% FOR SCHEDULED SELLERS.
- B) LIMITING THE NUMBER OF PEOPLE WHO BENEFIT FROM THE LOW TAXES.

THIS EFFECTIVELY FUNNELS THE SELL PRESSURE LOWERING IT TO MANAGEABLE LEVELS. EFFECTIVELY ALLOWING THE PROJECT TO BE READY TO BUY/COVER THE DIPS CAUSED.

### **2. ALTERNATIVE MARKET PLACES OUTSIDE OF THE LIQUIDITY POOL.**

WITH THE 90% SELL TAX IN PLACE. HOLDERS BECOME ILLIQUID FOR A WHILE ON THEIR INVESTMENT WHILST THEY WAIT FOR THEIR OPPORTUNITY TO CASH OUT WHEN THE TAX IS JUST 10%. BUT WE UNDERSTAND THE NEED TO BE LIQUID WHEN THERE'S A

PRESSING NEED. SO SHARE LEASING AND SHARE BIDDING EXIST AS PARALLEL LIQUIDITY UNLOCKING PLATFORMS. HOLDERS CAN CASH OUT (UNSCHEDULED AND OUT OF TURN) WITHOUT AFFECTING THE LP. WE MAKE IT SUCH THAT PANICKERS LEAVE THE LONG TERM INVESTORS UNBRUISED IN THEIR QUEST FOR LIQUIDITY.

- A. WITH SHARE BIDDING YOU ARE PRICING YOUR WHOLE HOLDINGS/STAKE/SHARE'S WORTH. IN TOKEN VALUE AND FUTURE REWARDS. THEN HANDING IT OVER TO A NEW OWNER TODAY AT A DISCOUNTED PRICE. AND LEAVE THE NEW OWNER TO RUN IT.
- B. WHILST WITH SHARE LEASING YOU ARE RENTING OUT YOUR TOKENS TEMPORARILY. AND THE TAKER GIVES YOUR FUTURE REWARDS TODAY. WHILST THE TAKER GETS TEMPORARY RIGHTS TO YOUR TOKEN REWARDS. AS LESSOR THIS IS IDEAL WHEN YOU JUST WANT SMALL LIQUIDITY FROM YOUR TOKENS. ENOUGH TO BE RAISED FROM REWARDS.

SEE FEATURES LIST BELOW TO UNDERSTAND HOW SHARE LEASING AND SHARE BIDDING WILL WORK.

3. A RESPONSIVE FUND ALLOCATION CONTRACT. REBALANCING WALLET. THAT PERFORMS AUTOMATIC BUY BACKS BASED ON LIQUIDITY POOL LEVELS. NOTE THAT ONE OF THE ADVANTAGES OF DISCOURAGING SELLS USING HIGH SELL TAXES. ALLOWS FOR A MORE EFFICIENT MEASURE OF FUTURE SELL PRESSURES. AND THE SUBSEQUENT FISCAL PLANNING TO RESERVE ENOUGH TO BUY AND BURN THE DIP. BUDGETS ARE NOW POSSIBLE. THE PROJECT'S HEALTH CAN NOW BE MEASURED BY CHECKING SELL AND BUY PRESSURE IN THE LIQUIDITY POOL DIRECTLY. AND AT THE VERY CHORE OF THIS IS A COMMUNITY-CONTROLLED REBALANCING WALLET THAT AUTOMATICALLY TRIGGERS BUY BACKS OR TREASURY ALLOCATIONS. THERE ARE MEASURES TO REGULATE THE HEALTH OF THE LIQUIDITY POOL. HEALTHY OR UNHEALTHY MARKERS. AND AUTOMATIC SAFEGUARDS TO COME BACK TO WITHIN A HEALTHY NET VALUE LOST (NVL) RANGE.

4. LIQUIDATING FEE TOKENS THROUGH BUYS NOT SELLING THEM INTO THE LIQUIDITY POOL. THIS AVOIDS DILUTION AND AN INACCURATE MEASURE OF WHAT NEEDS TO BE BOUGHT BACK. IN ADDITION. IT BENEFITS THE INVESTORS. WITH ARBITRAGE OPPORTUNITIES. SINCE THE TOKENS LIQUIDATED THROUGH BUYS ARE OFFERED AT A DISCOUNT. RANGING FROM 3 - 5%.

### **PONZI SCHEMING**

GRAND PONZI SCHEMING WITH EACH UNPLANNED/UNSCHEDULED SELL. THAT'S 90% OF SOMEONE'S HOLDINGS OFF THE CIRCULATING SUPPLY. MEANING THE VALUE OF ETH PER TOKENS LEFT IN EXISTENCE GOES UP. AND MORE REWARDS PER TOKEN. HERE. EACH UNSCHEDULED SELL LEAVES THE HOLDERS RICHER IN BOTH TOKEN VALUE AND SHARE OF REWARDS. ALSO WITH NORMAL TAXES. BURNS DON'T MEAN MUCH TO HOLDERS. PEOPLE CAN DUMP TOKENS TO THE POINT WHERE THE GAINS OR BENEFITS OF TOKEN BURNS ARE NEGLIGIBLE. BUT WITH IMPLIED SELL LIMITATIONS. EACH BURN HAS REAL WORTH. IT KEEPS THE TOKEN PRICE HIGH MORE EASILY. AND PRESENTS EQUAL OPPORTUNITY TO EACH SELLER NEXT IN LINE. SO YEAH. DO THE COMMUNITY A FAVOUR AND SELL IF YOU WANT OUT.

## **FULL FEATURES LIST**

CHECK OUT THE FEATURES LIST FOR THE FULL CAPABILITIES OF THIS PROJECT. ON OUR WEBSITE.

## **FUTURE PLANS AND PROJECT SCOPE**

THIS IS PHASE 1 OF 2. IN THIS PHASE WE SEEK TO TRY OUT NEW EXCITING MONEY CONCEPTS IN PREPARATION OF THE GROWTH NEEDED FOR THE NEXT BULL RUN. WE ALSO SET OUT CHARITIES/FOUNDATIONS. THROUGH FEATURES SUCH AS BENEFICIARY SETTING. WHERE CHARITABLE SYSTEMS CAN BE SET UP TO RECEIVE CONTINUOUS STREAMS OF INCOME.

## **PHASE 2 INSIGHTS.**

BUILDING ON TOP OF THE REWARD'S BENEFICIARY FEATURE AND FEE COLLECTOR FEATURE. WE MEAN TO EXPLORE PROCESSING DONATIONS FOR CHARITIES.

1. DONATE A STREAM OF INCOME TO A CHARITY/FUNDRAISING OF CHOICE. MEANT FOR INTERNAL USE BY HOLDERS. HOLDERS CAN ALSO CREATE A CHARITY FOR THEIR COUNTRY OR TOWN OR SOCIETY. YOU HAVE TO REGISTER A FEE COLLECTOR CONTRACT FOR THE CHARITY OR YOUR FUNDRAISING BENEFICIARY OF CHOICE. TO START DONATING WEEKLY ALL OUR COMMUNITY NEEDS TO DO, IS TO STAKE TOKENS ON THE CONTRACT. AND THEY START DONATING MULTIPLE REWARD CLAIMS AUTOMATICALLY. YOU CAN UNSTAKE AT ANY POINT IN TIME AND DONATIONS ALSO AUTOMATICALLY STOP GOING INTO THE CHARITY. ITS THE SIMPLEST WAY TO MAKE CHARITIES COLLECT ALL REWARDS DIRECTLY INTO THEIR WALLET IN 1 TRANSACTION. REMEMBER THIS IS COMMUNITY DONATIONS ONLY. THIS IS THE INITIAL PHASE OF REWARD AGGREGATING MODULE TEST PILOT. NOT MEANT FOR PEOPLE TO BUY THE TOKEN IN ORDER TO DONATE.

2. REWARD AGGREGATING IS PART OF PHASE 2 OF OUR BUILDING. APPLICATION AND EARNING SYSTEMS FOR THE NEXT BULL RUN.

BUT. WHAT'S REWARD AGGREGATING?

THIS IS NOT THE FIRST PASSIVE INCOME PROJECT. MANY HAVE COME AND DUMPED AS THE HYPE DIED DOWN. BUT THEY STILL EARN EVEN A COUPLE OF NEGLIGIBLE REWARDS EACH MONTH. WE WANT TO USE BENEFICIARY SETTINGS TECH AT A TEMPLATE TO BUILD A REWARD DUSTING CONTRACT THAT AGGREGATES ALL TOKENS FROM ALL PASSIVE INCOME PROJECTS OF THE PAST. AND MAKE THAT AGGREGATED INCOME STREAM AVAILABLE TO CHARITIES.

I.E. YOU ALREADY OWN PASSIVE INCOME TOKENS WHICH EARN REWARDS WEEKLY. THEY MAY BE SMALL TO YOU NOW. BUT AGGREGATE THEM ALL. TOKENS FROM ALL OR ANY TAXING PROJECT. AND THEIR SMALL (\$1) OR HIGH (\$100) WEEKLY EARNINGS. BUT FROM 5 MILLION WALLETS? THAT'S DUSTING THE SYSTEM FOR ALL PASSIVE INCOME CRUMBS AND CASHING THEM IN. FOR A GOOD CAUSE.

YOU CAN KEEP YOUR PASSIVE INCOME TOKENS USEFUL DURING THE BEAR SEASON. AND UNSTAKE THEM DURING THE BULL RUN WHEN THEY BECOME GOOD EARNERS AGAIN.

## **COMMON WHYS**

### **WHY THIS APPROACH?**

ANSWER IS SUSTAINABILITY. ALL PROJECTS NEED TO BE SUSTAINABLE FOR LONG ENOUGH TO HIT GOALS. IF NOT, ALL ITS GOALS WILL END WITH THE DUMP. EVERYONE HAS HEARD THE PHRASE ITS ALL A PONZI. WE ALL WANT TO MAKE MONEY. WE ALL WANT OUR INVESTMENT GAINS TO STAY UP. YET UNCHECKED SELLING IS THE BIGGEST PROBLEM. WE CANT HAVE BOTH: MAKING EVERYONE RICH, WHILST ALSO HAVING EVERYONE FREE TO CASH OUT DURING THE SAME TIME. WE HAVE TO BE SMART ABOUT WHAT WE HAVE. BOTH THE PROJECT AND THE HOLDERS NEED THE MONEY. ON ONE HAND, IF IT'S ALL DRAINED BY SELLERS THE PROJECT DIES. ON THE OTHER HAND, IF IT ALL GOES TO THE PROJECT, THE INVESTORS SUFFER ALSO. WE NEED TO STRIKE A BALANCE BETWEEN THE TWO: PROJECT VERSUS INVESTORS. REWARDS VERSUS TOKEN PRICE. THAT'S HOW WE BECOME SUSTAINABLE LONG ENOUGH TO ACHIEVE OUR GOALS.

### **WHY THE SUCH A RADICALLY HIGH TAX?**

2% TAXES ON SELLS ARE SIMPLY NOT SUSTAINABLE. THEY ARE JUST A TINY GRAIN COMPARED TO UNCHECKED OUTFLOWS. THE CRYPTO SPACE, PARTICULARLY THE WEB3 FRONTIER, IS AT THE FOREFRONT OF TRYING OUT RADICAL FINANCIAL INNOVATIONS. THERE IS MORE FREEDOM HERE THAN IN THE TRADITIONAL WORLD.

### **WHY DOES IT SOUND LIKE A HONEYPOT?**

ITS NOT. INVESTORS CAN SELL ANYTIME THEY WANT. IF YOU ARE USING AUTOMATED CHECKERS OR SNIFFERS, THEY WILL FAIL BECAUSE:

- WE DON'T BOW DOWN TO UNISWAP'S RULES AND LIMITATIONS. WE WORKED AROUND THEM BY USING OUR OWN CONTRACT AS A PROXY. TRYING IT OUT IS THE ONLY TEST THAT WILL PASS. EVEN WITH 10 TOKENS.
- AUTOMATES SNIFFERS ARE RIGID AND WILL NEVER COVER ALL THE VARIATIONS OF SOLIDITY CODE OUT THERE. THEY ONLY COVER WHAT HAS EXISTED FOR A LONG TIME AS A STANDARD. NOT SOMETHING NEW AS THIS. OR ANY OTHER THAT WILL COMER AFTER US. IF ANYTHING SNIFFERS SHOULD KEEP EVOLVING AND ADAPTING TO COVER ALL SCENARIOS.

### **WHY REBALANCING WALLET?**

AS LEARNT FROM OTHER PROJECTS, BUY BACKS NEED TO BE CALCULATED & TIMELY. OTHERWISE IT LEAVES THE ECOSYSTEM VULNERABLE. IF TOKEN PRICE SUFFERS FOR THE BENEFIT OF ONCE OFF REWARDS, WE WOULD BE SHOOTING OURSELVES IN THE FOOT. NOONE WOULD CARE TO JOIN WHEN THEIR INITIAL INVESTMENT IS GUARANTEED TO PLUMMET ON OUR WATCH, AS HAPPENED WITH DANIELLA AND MIM. ALSO, HOW DO WE DETERMINE HOW MUCH OF THE PROJECT CHEST FUNDS TO SEND TO TREASURY? OR TO BUYBACK? A REBALANCING WALLET AUTOMATICALLY TRACKS THE LIQUIDITY POOL'S SELLING PRESSURE (NET VALUE LOST) VERSUS BUYBACKS. IF THE RESULTING REBALANCING BIAS IS NOT HEALTHY IT AUTOMATICALLY TRIGGERS A BUYBACK. IF THERE IS EXCESS IT AUTOMATICALLY SENDS TO TREASURY. IF ITS IN A HEALTHY RANGE, IT TRIGGERS A POLL AUTOMATICALLY THE VERDICT WHICH WILL DECIDE WHERE FUNDS WILL GO. MINIMUM POLLING FREQUENCY IS 1 HOUR, MAXIMUM 6 HOURS. ANY HOLDER CAN TRIGGER THESE ACTIONS.

### **WHY SHARE BIDDING?**

WE WANT TO PROTECT THE LIQUIDITY POOL FROM SELL PRESSURE BY ALL MEANS NECESSARY. WE WANT TO FACILITATE SHARE HOLDER OWNERSHIP TRANSFER. OUTSIDE OF THE LIQUIDITY POOL. ONE COULD ASK WHY BUY FROM THERE INSTEAD OF THE LIQUIDITY POOL? BUYING FROM SHARE BIDDING IS CHEAPER AS THERE ARE NO TAXES. THERE ARE ACTUALLY PRICE DISCOUNTS INSTEAD. AS TOKEN HOLDERS UNDERSTAND THEY ARE UNDER STRICT TAXES WHICH COULD POTENTIALLY COST MORE THAN THE DISCOUNT THEY ARE OFFERING TO NEW TAKERS WHO HAVE THE MONEY TO TAKE THE SHARES.

### **WHY 90% NOT 100%?**

WE NEED TO INCENTIVISE THE HOLDER TO SELL AND RETAIN SOMETHING. 90% SELL TAX IS AS GOOD AS LOCKING YOUR TOKENS IN. AND THE VERY DEFINITION OF "YOU ONLY LOSE WHEN YOU SELL". OTHERWISE WAIT YOUR TURN.

### **WHY IS AN OWNER NEEDED?**

TO ADJUST TAXES AS FITTING TO THE TIMES. ALONG OTHER RATES LIKE: FEE TOKENS LIQUIDATION DISCOUNT. SET FEE COLLECTOR CONTRACT THAT BUILD ON TOP OUR MAIN CONTRACT. INCREASE ODDS TO SCHEDULE A LOW SELL TAX. SET LIMIT TO THE NUMBER OF STAKERS WHO AUTOMATICALLY QUALIFY FOR A LOW SELL TAX. ADJUSTING POLLING FREQUENCY IN THE REBALANCING WALLET WITHING A RANGE OF 1HOUR MINIMUM TO 6 HOURS MAXIMUM.

### **IS THIS A BEAR MARKET PROJECT?**

ITS FOR ALL SEASONS. TAXES FOR UNSCHEDULED SELLS ARE 90% DURING THE BEAR MARKET. BUT DURING THE BULL MARKET OR AT INVESTORS REQUEST. TAXES CAN BE LOWERED AS BUY PRESSURE IS NATURALLY HIGH. THIS IS HIGHLY DEPENDED ON FEES COLLECTED STILL.

### **JOBS AVAILABLE?**

SENIOR SOLIDITY DEVELOPER. PREFERABLY ONE BETTER THAN THE FOUNDER.

FRONT END DEVELOPER.

ECONOMIST TO MONITOR AND INTERPRET HEALTH INDICATORS FOR THE COMMUNITY. FARMER AND THE OWNER. ADVISING ON SUSTAINABLE LEVELS TAXES CAN BE LOWERED TO.

BUSINESS DEVELOPMENT OFFICER TO STRUCTURE COLLABORATIONS.

CHARITY MANAGER TO STRUCTURE HOW WE ENLIST. PAY. AND AUDIT FOUNDATIONS.

GAME DEVELOPMENT OFFICER.

NFT OR DIGITAL ASSETS OFFICER.

### **WHY NOT ALLOW THE NUMBER OF LOW TAX SELLS BASED ON THE FEES AVAILABLE?**

WE DON'T WANT TO SELL INTO THE AVAILABLE FEES ON RBW. BECAUSE WE DON'T WANT A SCENARIO WHERE PEOPLE GET SCHEDULED BUT CANT SELL BECAUSE THE FEES AVAILABLE AREN'T ENOUGH TO COVER THEIR SELL IN BUYBACKS. SO WE HAVE THIS LOOSELY CONTROL STRUCTURE WHERE SELLING IS JUST BASED ON CHANCE TO SUCCESSFULLY SCHEDULE. AND WE BUY WHAT WE CAN. THE TAXES SHOULD BE HIGH ENOUGH TO COLLECT SIGNIFICANT ETH FOR BUYBACKS. WHILST THE ODDS OF LISTING HELP LOWER THE DEMAND FOR THAT FEE ETH IN BUYBACKS.

### **ARE TAXES CONSTANT?**

BULL SEASON WE LOWER TAXES BASED ON ETH FEES AVAILABLE. REMOVING TAXES TOTALLY TO 10% IS UNJUSTIFIED. THERE ARE NO FUNDAMENTALS TO SUPPORT SUCH A MOVE. AND WORSE THE RBB WILL BE BLOWN OUT OF RANGE AND HARD TO BRING BACK DOWN BECAUSE OF THE SCALE OF SELLS THAT WERE ALLOWED. FEES AT THIS TIME WILL BE INSIGNIFICANT TO COVER THE GAP. SO WE REMAIN RESPONSIVE TO THE TRADING VOLUME AND LOWER TO WHAT WE CAN COVER. SUCH THAT EVEN AFTER THE BEAR MARKET, THE RBB IS STILL WITHIN HEALTHY RANGES TO FOR THE RBW TO CONTINUE TO FUNCTION NORMALLY. IT DOESN'T STOP WORKING.

### **FINAL WORD**

WITH THESE NEW TOKENOMICS. WE ARE AIMING TO GUARANTEE VALUE WHERE REBASING MECHANISMS FAILED TO. AND EFFECTIVELY MANAGE SELL PRESSURE WHERE STAKING MECHANISMS FAILED TO.
